

## ADVISORY NOTICE

49\_2025\_ Innovation of Urinorm XL N

Dear Customer,

We would like to inform you that the composition of Urinorm XL N has been updated to enhance its performance as a quality control material with normal (negative) analyte levels. Alongside this improvement, the product is now supplied in a new bottle, maintaining the same volume as before.

The updated bottle features a snap-top cap and an additional flip spout for convenient dispensing is included. If preferred, you may replace the cap with the flip spout before first use. The product can be stored with either cap.

Please be assured that the updated Urinorm XL N has been thoroughly tested and its properties and stability remains the same as the previous version.

Kindly note that the composition and packaging of Urinorm XL P remain unchanged.
