

# MAGO 4

## Allergy & food intolerance

- Automated processing of ELISA, IFA and agglutination
- MAGO 4 pre-programmed test procedures
- Up to 12 ELISA or 16 IFA simultaneously in one batch
- Wide range of ELISA, IFA and ImmunoBlot tests

# Allergy & food intolerance

## Allergy

|                 |                                      |                 |
|-----------------|--------------------------------------|-----------------|
| <b>ALKS-100</b> | <b>Specific IgE Base kit</b>         | 96 tests        |
|                 | Specific IgE- Basic kit              |                 |
| <b>ALKC-102</b> | <b>IgE Standard Curve</b>            | 8 standards     |
|                 | Specific IgE - Standard with curves  |                 |
| <b>ALKT-103</b> | <b>Total IgE</b>                     | 10 x 6 tests    |
|                 | Total IgE kit                        |                 |
| <b>AL</b>       | <b>Allergens</b>                     | 3 ml / 24 tests |
|                 | 280 liquid allergens and 17 mixtures |                 |

## Food intolerance

|               |   |              |
|---------------|---|--------------|
| <b>G-090</b>  | <b>IgG Screen Nutritional kit</b>   | 3 x 96 tests |
|               | ELISA test for semi-quantitative analysis of antibodies to 90 food allergens in human serum                 |              |
| <b>DBL-01</b> | <b><math>\beta</math>-Lactoglobulin IgG</b>   | 96 tests     |
|               | ELISA test for quantitative detection of IgG antibodies to cow's milk $\beta$ -Lactoglobulin in human serum |              |
| <b>DBL-10</b> | <b>Soya IgG</b>   | 96 tests     |
|               | ELISA test for quantitative detection of IgG antibodies to Soya protein                                     |              |

## Celiac disease

|               |  |             |
|---------------|--|-------------|
| <b>I-528</b>  | <b>Anti-Tissue Transglutaminase IgA</b>                        | 96 tests    |
|               | Test with human recombinant antigen for the IgA anti-human tTG |             |
| <b>I-527</b>  | <b>Anti-Tissue Transglutaminase IgG</b>                        | 96 tests    |
|               | Test with human recombinant antigen for the IgG anti-human tTG |             |
| <b>I-526</b>  | <b>Anti-Gliadin IgA</b>  | 96 tests    |
|               | Test for the IgA anti-Deamidated Gliadin                       |             |
| <b>I-524</b>  | <b>Anti-Gliadin IgG</b>  | 96 tests    |
|               | Test for the IgG anti-Deamidated Gliadin                       |             |
| <b>I-522</b>  | <b>Anti-Parietal Cell</b>                                      | 96 tests    |
|               | Test for the anti-Parietal Cells Abs                           |             |
| <b>I-513</b>  | <b>Anti-Intrinsic Factor Antibody ELISA</b>                    | 96 tests    |
|               | Test for the anti-Intrinsic Factor Abs                         |             |
| <b>F-127A</b> | <b>CELIAC - Primate Distal Esophagus (EMA) IFA Kit</b>         | 8 x 6 tests |
|               | EMA test for the IgA with primate distal esophagus             |             |
